

# MOLLUSCS AND MICROPLASTICS

## Examining plastic pollution trends in Tampa Bay Oysters

Science teachers in grades 9-12 are invited to join The Florida Aquarium for a one-day workshop in plastic pollution trends in Tampa Bay. Through this interactive workshop, educators will participate in STEM activities and receive related curricula for their classroom. These innovative methods will allow students to explore microplastics from a variety of perspectives. A stipend will be provided to teachers after the completion of the workshop.

**Who:** Science teachers (biology, marine biology, environmental science) in grades 9-12 in the following counties (due to grant restrictions): Hillsborough, Pinellas, Pasco and Manatee.

**When:** November, 2, 2024; 8:30 AM – 3:30 PM

**Where:** The Florida Aquarium  
Carol J. and Barney Barnett Learning Center Lab  
701 Channelside Drive Tampa FL, 33602

### Register for a Workshop

Click this [link](#) and complete the online form. Once you've registered, you will receive a confirmation email with materials.
